International application No.  
PCT/JP2005/004586

International filing date (day/month/year)  
09.03.2005

Priority date (day/month/year)  
10.03.2004

International Patent Classification (IPC) or both national classification and IPC  
Int.Cl.7 H01L51/00

Applicant  
CANON KABUSHIKI KAISHA

#### 1. This opinion contains indications relating to the following items:

- Box No. I Basis of the opinion
- Box No. II Priority
- Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- Box No. IV Lack of unity of invention
- Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- Box No. VI Certain documents cited
- Box No. VII Certain defects in the international application
- Box No. VIII Certain observations on the international application

#### 2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

#### 3. For further details, see notes to Form PCT/ISA/220.

Date of completion of this opinion

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/004586

**Box No. I Basis of the opinion**

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  
 This opinion has been established on the basis of a translation from the original language into the following language \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
  - a. type of material  
 a sequence listing  
 table(s) related to the sequence listing
  - b. format of material  
 in written format  
 in computer readable form
  - c. time of filing/furnishing  
 contained in the international application as filed.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority for the purposes of search.
3.  In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/004586

**Box No. V** **Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

**1. Statement**

Novelty (N)	Claims	YES
	Claims	1-37
Inventive step (IS)	Claims	YES
	Claims	1-37
Industrial applicability (IA)	Claims	YES
	Claims	1-37
		NO

WHOLE DOCUMENT FIG.3 & JP 2004-128467 A

[Claims 21-27, 29-35, 37]

The subject matter of claims 21-27, 29-35, 37 does not appear to be novel with respect to D1 cited in the ISR.

D1 discloses that the thin film is formed in order to control the molecular alignment ([0158]-[0161]).

[Claims 1-37]

The subject matter of claims 1-37 does not appear to involve an inventive step in view of D1-D2.

D2 discloses the organic transistor having a siloxane polymer layer. And D1 discloses the organic transistor having an organic semiconductor layer composed of porphyrin.

Therefore, the person skilled in the art can readily conceive the idea of adopting the organic semiconductor layer disclosed in D1 to the organic transistor disclosed in D2.

[Claims 1-37]

The subject matter of claims 1-37 does not appear to be novel with respect to D3 cited in the ISR.

D3 discloses the organic transistor having an organic semiconductor layer composed of porphyrin and substrate composed of siloxane (p6, p9). And D3 discloses providing an organic semiconductor precursor and forming an organic semiconductor layer by applying heat energy to the precursor.
